***Topcon Introduces the IS-5000\* Instrument Stand  
to Canada and Latin American Markets***

**OAKLAND, NJ, February 21, 2014** – Topcon Medical Systems (TMS) of Oakland, NJ announces the introduction of the new IS-5000 Instrument Stand to the eye care markets in Canada and Latin America.

The Topcon IS-5000 Instrument Stand is a compact mid-sized instrument stand at an affordable price. An illuminated membrane control panel makes it easy to operate in darkened environments and provides full control of the stand and chair functions. The innovative design brings the control panel and the three charging wells down towards the user, facilitating their reach.

Its down-only locking mechanism enhances patient comfort, and allows for effortless storage between exams.

The IS-5000 Instrument Stand can be used with any of the models of the Topcon Signature Series ophthalmic chairs. The convenient auto-voltage control board automatically adjusts power based on local electrical power standards.

***The Topcon IS-5000 Instrument Stand will replace the present CS-4 unit which will be discontinued after its release.***

For more information on the IS-5000 Instrument Stand or Topcon in general, please visit [www.topconmedical.com](http://www.topconmedical.com).

**About Topcon Medical Systems, Inc.**

Based in Oakland, NJ, Topcon Medical Systems (TMS) is a leader and technical innovator in the field of ophthalmic instrumentation. For more than 40 years, TMS has offered the most complete and technically advanced line of ophthalmic equipment in the U.S. marketplace. This equipment comprises the largest selection of precision ophthalmic and optical instruments from one manufacturer, providing a complete range of products for general and specialized applications. TMS manages ophthalmic dealer sales, corporate and government sales. TMS is a division of Topcon America Corporation, a wholly owned subsidiary of Topcon Corporation of Tokyo, Japan.
